ChatGPT and Beyond* **W/2 ECTS**

Storytelling for Digital Transformation* **W/3 ECTS**

Inter-/Transdisciplinary Competencies (max. 3 ECTS)

Students can further choose 3 ECTS from the entire UZH-/ETH-offer
Please also consider the DSI Studium Digitale (in German) **W/3 ECTS**

* Electives (W-Modules) can be replaced by other electives offered within the digital skills study program. The W-modules listed here are just a suggestion. See the course catalogue (VVZ) for current offer.

** Students who can demonstrate equivalent or higher Python skills with courses already completed may substitute the course with other courses from all module groups offered within the digital skills minor program.

This Liberal Arts Option (LAO) is a supplement to the MLaw «Rechtswissenschaft» Master's program. It allows students to develop individual digital skills and competences. The LAO modules will be part of the academic record, but not affect the MLaw grade.

This model curriculum (version February 2025) illustrates a possible, exemplary selection of courses of the study program that begins each Fall semester (HS). No claims can be derived from this graphic (see StO/appendix study regulation).
